Faizan Khan
Aspiring Software Engineer
Brooklyn, NY 11229

(646) 752-3766 | faizanakhan2003@gmail.com | linkedin.com/in/faizan-khan234/ | github.com/jellyfishing2346

EDUCATION:
B.S., Computer Science (minor in Data Science), Brooklyn College, CUNY   Anticipated: June 2025
A.S., Computer Science, Kingsborough Community College, Brooklyn, NY   Graduated January 2023

SKILLS:
- **Programming Languages:** C++, Python, Java, JavaScript, HTML, CSS, Scratch, SQL
- **Tools & Technologies:** Git/GitHub, Intellj, VS Code
- **Natural Languages:** Basic Urdu

TECHNICAL PROJECTS:
Rate and Age of the Office Characters, https://github.com/jellyfishing2346/Rate-and-Age-of-the-Office-Characters
- Developed a program using Python to read a file of characters from "The Office" and their ratings based on characteristics.
- Incorporated 10 questions for users to determine which character from "The Office" they were like.

SugarLevels, https://github.com/jellyfishing2346/Sugar-Levels
- Coded program using C++ for mock medical record which allows users to track their sugar levels, asks users if they want to enter, view, or edit their medical info, add a patient, delete a patient, or if they wish to end the program.

To Do List, https://jellyfishing2346.github.io/CISC3665-Assignment1/
- Created "To Do List" website project using HTML, CSS & JavaScript that allows users to select color options, and a due date to organize their tasks when they add a task to the list.
- Incorporated features including add subtask, remove tasks, cross a task from to do list, and a congratulations sound to indicate completed task.

Inner Calm Connect, **https://jellyfishing2346.github.io/Inner-Calm-Connect/**
- Launched a mental health website called Inner Calm Connect using HTML, JavaScript, and CSS.
- Support user's mental well-being journey by highlighting mental health resources such as videos and articles on how to improve mental health.
